Offer

Support in the licensing process at the marine space

The team has deep knowledge on the licensing process of projects to be installed in the marine space as well as on the national public authorities involved in the process. The team can thus provide services on the facilitation of the licensing process of projects to be installed in the Portuguese marine space.

Offer

Environmental Impact Assessment

The team is able to lead the Environmental Impact Assessment of projects to be installed in the marine space having, if needed, contact with a group of consultants with expertise in several of the EIA components

Keywords: Environmental Impact Assessment

Offer

Environmental monitoring management

The environmental impact assessment of projects to be installed in the marine environment usually require that monitoring activities are carried out during the operation of the project. The Marine Environment team has experience in the coordination of such activities, optimising time and money.

Keywords: environmental monitoring

Offer
