- 10:00 h - 13:00 h
- 14:00 h - 16:00h

Description

The ISQ Group is a private, independent group, whose head office is in Portugal. It provides inspection, testing, training and technical consultancy services in over 20 countries in 4 continents, operating in all economic sectors, especially in Oil & Gas, aeronautics and space, energy, manufacturing, automotive industry, transport and infrastructure and health.

Integrated and innovative solutions ensure that the client's assets and products comply with standards and regulations and go beyond it in terms of quality, health and safety, environment and social responsibility, lowering the risk in their fields of activities and increasing the availability of their assets.

The national and international business is based on specialised services with a strong technological component, such as complex testing, integrity management, quality assurance and control activities, health and safety, energy conservation and environmental protection. These services are supported by R&D activities and by accredited laboratories (more than 20)

During the last 20 years, ISQ has also acquired a considerable experience in participation and management of European R&D projects (more than 300 projects and 1000 partners), namely in FP5, FP6 and FP7, IEE, LIFE, RFCS funding programs.

Comprising more than 30 companies, ISQ Group has a total workforce of around 1,400 employees throughout the world.
